

# CORONAVIRUS - IPI UPDATE

February 21, 2020

Dear Valued Customer,

ECU Worldwide USA has been advised by our main IPI service provider of potential reductions in Import LCL IPI frequency from Los Angeles. This decreased IPI frequency from Los Angeles is a direct result of the extremely light import LCL cargo volumes into the West Coast US from China.

As of now this is impacting the US West Coast Import IPI services only.

ECU Worldwide USA Import specialists as well as ECU Worldwide USA Management is continually monitoring the situation and will ensure every effort is made to minimize delays in movement of IPI cargo.

Should you require further information please contact your local ECU Worldwide office and or check [www.ecuworldwide.com](http://www.ecuworldwide.com) for additional updates regarding this matter.
